TO THE PUBLIC.

The Olympic National Forest, which was established by presidential proclamation on February 22, 1897, comprises a present area of about 1,552,000 acres. Of this nearly 114,000 acres of heavy timber along the western boundary is held in private ownership and about 83,000 is unsurveyed school land. The Forest includes the entire range of the Olympic Mountains, the highest point of which is Mount Olympus, 8,250 feet above sea level. Other peaks are Queets, Seattle, Meany, Barnes, Christie, and Anderson, which vie with Mount Olympus in altitude, ruggedness, and grandeur. Peaks averaging 5,500 to 6,000 feet, visible from the Straits, Hoods Canal, and Puget Sound cities, are Mount Angeles, Deer Park, Mount Townsend, Constance, The Brothers, Mount La Crosse, Stone, Bretherton, Tebo

and Cushman, Rose, and Ellinor. The valleys are unusually box like in form with many rock-lined canyons, gradually widening out at the lower altitudes into small bench areas and, in a few cases, quite extensive river bars and rich bottoms, such as the Queniult and Hoh. The mountain ridges break down into steeply rolling foothills near the Forest borders.

The principal rivers radiating from the high central part of the Forest are the Elwha, Dungeness, Little and Big Quilcene, Dosewallips, Duckabush, Hamma Hamma, North and South Skokomish, Wynooche, East and West Humptulips, Queniult, Queets, Clearwater, Hoh, Bogachiel, Calawah, and Soleduck.

The chief value of this National Forest is in its timber, and the principal reasons for its establishment and administration under Government ownership are to protect it from fire and to insure future crops by scientific regulation of cuttings. The forest cover will be left intact at the main heads of streams which control water of public value and on steep slopes where serious erosion would be likely to follow cutting.

In the four Olympic counties, in which the Forest lies, is a stand of merchantable timber, including both private and Government, at present roughly estimated to be about 88 billion feet B. M. distributed as follows:

County.	Feet B. M. out- side National Forest.	Feet B. M. inside National Forest.	Total.
Jefferson	7, 265, 000	14, 735, 000	22, 000, 000
Clallam	9, 070, 000	15, 930, 000	25, 000, 000
Mason	4, 720, 000	2, 780, 000	7, 500, 000
Grays Harbor	28, 755, 000	4, 745, 000	33, 500, 000
			88, 000, 000

Considering these four counties together, National Forest timber amounts to 35.6 per cent of the total. Private timber, which amounts to a full 50 per cent, is now being cut at the rate of nearly 12 billion feet per year, which, with the gradually increased production to be expected for this region as the supply becomes exhausted elsewhere, means that ultimately the Olympic National Forest will be called upon to supply the greater

portion of the lumber cut on the peninsula. Considering the average annual growth for the Forest as 300 board feet per acre per annum, the present annual increment would amount to about 241,000,000 feet B. M. Since 25 per cent of the net National Forest revenues is returned to the State for school and road purposes, the four Olympic Forest counties can expect about \$123,750 annually when the annual cut equals the annual growth. An additional 10 per cent is appropriated for roads within the National Forest.

Many natural water-power sites occur within the Olymic Mountains, the development of which will be encouraged under a long-term leasing system just as rapidly as need for their use arises.

Much of the high, scattered, and practically inaccessible alpine park areas is well stocked with elk. The latest estimate of the number of these animals for the entire peninsula is 7,000, of which at least 5,500 now range almost wholly within the National Forest.

Forest Service telephone lines reach many of the best hunting, fishing, and mining sections. If you are going on a trip into the woods, leave your name and destination with the nearest Forest officer. In case of emergency your relatives or friends can then reach you

through the Forest Service. The headquarters of the Forest supervisor in charge of the Olympic National Forest are in the post office building, Olympia, Wash. (Telephone 590). District ranger headquarters are at Port Angeles, Quilcene, Hoodsport, and Queniult. Assistant rangers and guards are stationed at various points throughout the National Forest, as indicated on the map. The office of the District Forester having general supervision of all the National Forests in Washington, Oregon, and Alaska is located in the Beck Building, Portland, Oreg., and the head office of the Forest Service, The Forester, is in Washington, D. C.

Visitors, and those contemplating visits, to the Olympic Forest are invited to call on or write the Forest supervisor, or any of the other Forest officers, for more specific information along any of the various lines of Forest Service activities in which they may be interested, or concerning routes of travel, special recreation features, camp sites, hotels, etc., within the National Forest. It is a very desirable practice to meet and keep in personal touch with the local Forest officer so that in case of sickness, accident, or other urgent personal matter, local advice may be secured and the nearest Government telephone or other means of communication may be readily located. The Forest officer will also expect and welcome your interest and personal cooperation in preventing and extinguishing forest fires, and in promptly reporting by telephone or otherwise any impending damage to the Forest from this or other agency. Any messenger or telephone charges legitimately involved in such instances by calls to the local Forest officer or supervisor, will of course be cheerfully

assumed by the Forest Service.

THE LAW REQUIRES THESE PRECAUTIONS. Offenses against the Federal fire laws, passed by Congress May 5, 1910, are punishable by a maximum

\$5,000, or imprisonment for two years, or both, if a fire is set maliciously, and \$1,000, or imprisonment for one year, or both, if fire results from carelessness.

The Secretary of Agriculture offers a reward for information leading to the conviction of any violation of the Federal fire laws affecting public lands.

WHAT THE WASHINGTON STATE FIRE LAWS

PROHIBIT. HELP ENFORCE THEM. 1. Burning of slashings, choppings, woodlands, or brush land between June 1 and October 1 without a per-

mit and without care to confine the fire. 2. Setting or causing fire to be set on land of another without permission from the owner; willfully or negligently allowing fire to escape from your own land; accidentally setting fire on land of your own or of another and allowing it to escape without using every possible effort to extinguish it.

3. Setting of fire unlawfully with intent to injure the property of another. 4. Willful destruction of any posted fire notice.

5. If fire occurs through willfulness, malice, or negligence, damages may be recovered in civil action against those responsible.

6. Persons or corporations are liable for the full amount of all expenses incurred in fighting fires caused in violation of the law.

YOU ARE INTERESTED IN PUBLIC HEALTH AS WELL AS PREVENTION OF FIRES.

Each year hunters, campers, tourists, and forest rangers contract typhoid fever or enteric disorders from the pollution of streams. Ordinary care will prevent them.

The law requires it. Regulations of the U.S. Department of Agriculture prohibit having or leaving in an exposed or insanitary condition on National Forest lands camp refuse or débris of any description, or depositing on National Forest lands, or in the streams, lakes, or other waters within or bordering upon National Forests, any substance which pollutes or is likely to cause pollution of the streams, lakes, or waters.

Section 290, chapter 249, Session Laws, 1909, State of

Washington, says:

Every person who shall deposit or suffer to be deposited in any spring, well, stream, river, or lake, the water of which is or may be used for drinking purposes, or on any property owned, leased, or otherwise controlled by any municipal corporation, corporation, or person as a watershed or drainage basin for a public or private water system any matter or thing whatever, dangerous or deleterious to health, or any matter or thing which may or could pollute the waters of such spring, well, stream, river, lake, or water system, shall be guilty of a gross misdemeanor, * * *

Report any offenses either to the nearest Forest ranger or to Dr. Elmer E. Heg, Health Commissioner, Seattle, Wash.

HUNTERS AND CAMPERS. This map and folder is for your guidance and assistance when on the Olympic National Forest. Your cooperation is asked in helping to prevent fire. See the suggestions printed on this folder. If you can, take a shovel along with you in your camp equipment. Nothing extinguishes a fire so thoroughly as shoveling mineral earth upon it. It is better than using water,

unless you have barrels of it. Put out any small fire you happen to find.

Do not wait for the ranger or some one else to do it. It may develop into uncontrollable size before any one gets to it. If you can not control the fire with the equipment you have, secure tools from the nearest firetool box, as shown on the map. If the box is locked, break it open. Report the fire at once, if possible, to

A PORTION OF THE GAME LAWS, STATE OF WASHING-TON, 1915-1916.

the nearest ranger, State fire warden, or to any one who

can send out for necessary assistance.

Section 5395-25. Every person who shall within the State of Washington, hunt, pursue, take, kill, injure, destroy or possess, any ruffed grouse, Hungarian partridge, prairie chicken, sage hen, Chinese, English, golden, Mongolian, silver, blackneck or Japanese pheasant, blue grouse, Franklin grouse, wild turkey, scaley partridge, Reeves pheasant, or any species of quail or any species of upland game birds, except as herein provided, shall be guilty of a misdemeanor: Provided, That in any of the counties lying west of the summit of the Cascade Mountains, it shall be lawful to hunt, pursue, take, kill, and possess ruffed grouse, native pheasant, Chinese pheasant, blue grouse, ptarmigan, and any species of quail between the 15th day of September and the 31st day of October, both dates inclusive: Provided,

That English, Mongolian, and Reeves pheasants may be

killed in all counties west of the Cascade Mountains, except in Mason and Thurston Counties, from October 1st to October 15th: Provided, further. That in the counties lying east of the summit of the Cascade Mountains, except in the counties of Walla Walla, Asotin, Garfield, and Columbia, it shall be lawful to hunt, pursue, take, kill, and possess ruffed grouse (native pheasant) and blue grouse between the 1st day of September and the 15th day of November, both dates inclusive: Provided, Native pheasants shall not be so taken or killed in Yakima County: Provided, further, That in the counties of Walla Walla, Asotin (except in the precincts of Clarkston, South Clarkston, and West Clarkston in said county of Asotin), Garfield and Columbia, it shall be lawful to hunt, pursue, take, kill, and possess ruffed grouse (native pheasant) and blue grouse from August 15th to October 1st, both dates inclusive of the same year; any species of quail from October 1st to October 10th, both dates inclusive of the same year; prairie chickens from September 15th to November 1st, both dates inclusive, of the same year: Provided, further, That it shall be lawful to hunt, pursue, take, kill, and possess Chinese pheasant in Benton, Yakima, and Spokane counties between the 1st day of October and the 15th day of October, both dates inclusive, of the same year; sage hens from October 15th to November

1st, both dates inclusive, of the same year; and in Kittitas County Hungarian partridge, Chinese pheasant, sage grouse, and sharp-tailed grouse (western prairie chicken) may be taken from the 1st day of October to the 10th day of October, both dates inclusive, of the same year. In Whitman, Okanogan, Ferry, Lincoln, Walla Walla, Adams, Asotin, Columbia, and Garfield Counties sharp-tailed grouse (western prairie chicken) may be taken from the 15th day of September to the 1st day of November, both dates inclusive, of the same year. In Spokane County, Bob White quail and Hungarian partridges may be taken from the 1st day of October to the 15th day of November, both dates inclusive, of the same year. In Douglas County, sharp-tailed grouse (western prairie chicken) may be taken from the 1st day of September to the 1st day of November, both dates inclusive, of the same year.

Any person or persons violating any of the provisions of this section shall be guilty of a misdemeanor.

Section 5395-26. Every person who shall, during the season when it is lawful to hunt the same, kill more than five (5) prairie chickens, grouse, partridge, Hungarian partridge, native pheasant, Chinese, English, golden, Mongolian, silver, blackneck or Japanese pheasant, or more than 10 quail of any or all kinds in any one day, shall be guilty of a misdemeanor: Provided, That

no person shall in any one day kill more than five (5) of the game birds mentioned in this section, it being the intention thereof to limit the bags of one day to five (5) birds, no matter how many varieties of these protected upland birds are included in the bag: Provided, further, That ten (10) quail may be killed in one day during the season when it is lawful to hunt the same, but the limit of upland game birds, if quail are included in the same, for one day shall never exceed ten upland birds, but in no event more than five of the above-named birds other than quail, and the limit of the bag for one week shall never exceed twenty-five (25) upland birds: Provided, further, That in Kittitas County the bag limit for Chinese or English pheasants, Hungarian partridges, sage grouse, and sharp-tailed grouse (western prairie chicken) shall not be more than three (3) birds of any one variety, or three of any mixed bag. Any person violating any of the provisions of this section shall be guilty of a misdemeanor.

Section 5395-33. No person shall, within the State of Washington, hunt, catch, take, kill, ship, convey, or cause to be shipped or transported by common or private carrier to any person, either within or without the State purchase, expose for sale, have in possession with intent to sell, sell to any person, or have in possession or under control at any time, any elk, moose, caribou,

deer, fawn, mountain sheep, or mountain goat, or any part thereof, including the hides, horns, or hoofs except as herein provided: Provided, That deer, caribou, and mountain goat may be killed in the counties lying east of the eastern boundaries of Whatcom, Skagit, Snohomish, King, Pierce, Lewis, and Skamania Counties, between October 1st and November 15th of the same year: And provided further, That deer and mountain goat may be killed between September 15th and November 1st of the same year in the counties lying west of the eastern boundaries of Whatcom, Skagit, Snohomish, King, Pierce, Lewis, and Skamania Counties, and any deer, mountain goat or any part thereof, may be had in possession by any person during the said time. No person shall kill or have in possession during said time more than two deer, nor more than one mountain goat, or parts thereof: And provided further, That any person who is lawfully in possession of any deer, mountain goat, or any part thereof, may ship, or cause to be shipped, any such deer, goat, or part thereof, from place to place within the State: And provided further, That after the year 1925 male antiered moose and elk may be killed between October 1st and 15th of the same year, and any such male elk or moose or part thereof may be had in possession by any person during the time aforesaid, but no person shall kill or have in possession

during said time more than one male antlered elk or moose, or part thereof: And provided further, That any person desiring to retain any game bird, game animal, or game fish, or any part thereof for human consumption or ornamental purposes, after the close of the season when the same was lawfully taken, may do so by furnishing the county game commission of the county wherein he desires to retain the same, a true and correct description thereof, giving the number, kind or kinds, and designating the place where the same is stored with reasonable certainty. The game commission or game warden shall have authority to tag or stamp the same for the purpose of identification, without materially damaging the same.

SIX RULES FOR PREVENTION OF FIRES IN THE MOUNTAINS.

1. MATCHES. - Be sure your match is out. Break it in two before you throw it

2. TOBACCO. — Throw pipe ashes and cigar or cigarette stumps in the dust of the road and stamp or pinch out the fire before leaving them. Don't throw them into brush, leaves, or needles.

3. MAKING CAMP.—Build a small camp fire. Build it in the open, not against a tree or log or near brush. Scrape away

the trash from all around it. 4. LEAVING CAMP. - Never leave a camp fire, even for a short time, without quenching it with water or earth.

5. BONFIRES.—Never build bonfires in windy weather or where there is the slightest danger of their escaping from control. Don't make them larger than you need.

6. FIGHTING FIRES.—If you find a fire, try to put it out. If you can't, get word of it to the nearest U.S. forest ranger or State fire warden at once. Keep in touch with the rangers.
